

PROUD TO BE

My family before me
Sailed the ocean blue
Served their country proudly
And held their service true

Spent time away from loved ones
When times were hard already
Blue and gold in their veins
Held their focus steady

They took care of business
And took care of it very well
Came home every time
With a different story to tell

Now it's my turn
To sail the ocean sea
And see what the blue and gold
Has in store for me

I'll try my best to be
A reflection of their spirits
For my country and my loved ones
Are the thoughts that I hold dearest

To my family, "I love you"
And to you I give thanks
For I am a US sailor
I'll join you in the ranks

And I'll look them square in the eye
And say my name loud and true
For this name of mine shall carry on
Proudly with honor
Through the red, white, and blue
